

MRI Ultrasound

August 2011

Tri-Cities Open MRI is pleased to announce that we are one of only three facilities in Illinois to be awarded the distinction of

Best of 2011 Radiology Facilities

by *Imaging Economics* Magazine for our commitment to excellence in diagnostic imaging and patient care standards.

Imaging Economics Magazine is dedicated to helping radiologists, radiology administrators and health care executives meet the increasingly complex economic challenges of providing quality imaging in both the inpatient and outpatient settings. Since 1987, the journal has provided a monthly, high-level forum to address the development, diffusion, acquisition and utilization of imaging technology.

The award comes one year after Tri-Cities Open MRI was named “One of the Best” Medical Clinics by the Kane County Chronicle for 2010.

For more information or to schedule a patient, please call 630-444-0082.
